Surviving the Future is a story drawn from the fertile ground of the late David Fleming's extraordinary Lean Logic: A Dictionary for the Future and How to Survive It. That hardback consists of four hundred and seventy-two interlinked dictionary entries, inviting readers to choose their own path through its radical vision. Recognizing that Lean Logic's sheer size and unusual structure can be daunting, Fleming's long-time collaborator Shaun Chamberlin has selected and edited one of these potential narratives to create Surviving the Future. The content, rare insights, and uniquely enjoyably writing style remain Fleming's, but are presented here at a more accessible paperback-length and in conventional read-it-front-to-back format. The subtitle—Culture, Carnival and Capital in the Aftermath of the

Market Economy—hints at Fleming's vision. He believed that the market economy will not survive its inherent flaws beyond the early decades of this century, and that its failure will bring great challenges, but he did not dwell on this: "We know what we need to do. We need to build the sequel, to draw on inspiration which has lain dormant, like the seed beneath the snow." *Surviving the Future* lays out a compelling and powerfully different new economics for a post-growth world. One that relies not on taut competitiveness and eternally increasing productivity—"putting the grim into reality"—but on the play, humor, conversation, and reciprocal obligations of a rich culture. Building on a remarkable breadth of intellectual and cultural heritage—from Keynes to Kumar, Homer to Huxley, Mumford to MacIntyre, Scruton to Shiva, Shakespeare to Schumacher—Fleming describes a world in which, as he says, "there will be time for music." This is the world that many of us want to live in, yet we are told it is idealistic and unrealistic. With an evident mastery of both economic theory and historical precedent, Fleming shows that it is not only desirable, but actually the only system with a realistic claim to longevity. With friendliness, humor, and charm, *Surviving the Future* plucks this vision out of our daydreams and shows us how to make it real.

Lean Logic is David Fleming's masterpiece, the product of more than thirty years' work and a testament to the creative brilliance of one of Britain's most important intellectuals. A dictionary unlike any other, it leads readers through Fleming's stimulating exploration of fields as diverse as culture, history, science, art, logic, ethics, myth, economics, and anthropology, being made up of four hundred and four engaging essay-entries covering topics such as Boredom, Community, Debt, Growth, Harmless Lunatics, Land, Lean Thinking, Nanotechnology, Play, Religion, Spirit, Trust, and Utopia. The threads running through every entry are Fleming's deft and original analysis of how our present market-based economy is destroying the very foundations—ecological, economic, and cultural—on which it depends, and his core focus: a compelling, grounded vision for a cohesive society that might weather the consequences. A society that provides a satisfying, culturally-rich context for lives well lived, in an economy not reliant on the impossible promise of eternal economic growth. A society worth living in. Worth fighting for. Worth contributing to. The beauty of the dictionary format is that it allows Fleming to draw connections without detracting from his in-depth exploration of each topic. Each entry carries intriguing links to other entries, inviting the enchanted reader to break free of the imposed order of a conventional book, starting where she will and following the links in the order of her choosing. In combination with Fleming's refreshing writing style and good-natured humor, it also creates a book perfectly suited to dipping in and out. The decades Fleming spent honing his life's work are evident in the lightness and mastery with which *Lean Logic* draws on an incredible wealth of cultural and historical learning—from Whitman to Whitefield, Dickens to Daly, Kropotkin to Kafka, Keats to Kuhn, Oakeshott to Ostrom, Jung to Jensen, Machiavelli to Mumford, Mauss to Mandelbrot, Leopold to Lakatos, Polanyi to Putnam, Nietzsche to Næss, Keynes to Kumar, Scruton to Shiva, Thoreau to Toynbee, Rabelais to Rogers, Shakespeare to Schumacher, Locke to Lovelock, Homer to Homer-Dixon—in demonstrating that many of the principles it commends have a track-record of success long pre-dating our current society. Fleming acknowledges, with honesty, the challenges ahead, but rather than inducing despair, *Lean Logic* is rare in its ability to inspire optimism in the creativity and intelligence of humans to nurse our ecology back to health; to rediscover the

importance of place and play, of reciprocity and resilience, and of community and culture. ----- Recognizing that Lean Logic's sheer size and unusual structure could be daunting, Fleming's long-time collaborator Shaun Chamberlin has also selected and edited one of the potential pathways through the dictionary to create a second, stand-alone volume, *Surviving the Future: Culture, Carnival and Capital in the Aftermath of the Market Economy*. The content, rare insights, and uniquely enjoyable writing style remain Fleming's, but presented at a more accessible paperback-length and in conventional read-it-front-to-back format.

For many foreign observers, Brazil still conjures up a collage of exotic images, ranging from the camp antics of Carmen Miranda to the bronzed girl (or boy) from Ipanema moving sensually over the white sands of Rio's beaches. Among these tropical fantasies is that of the uninhibited and licentious Brazilian homosexual, who expresses uncontrolled sexuality during wild Carnival festivities and is welcomed by a society that accepts fluid sexual identity. However, in *Beyond Carnival*, the first sweeping cultural history of male homosexuality in Brazil, James Green shatters these exotic myths and replaces them with a complex picture of the social obstacles that confront Brazilian homosexuals. Ranging from the late nineteenth century to the rise of a politicized gay and lesbian rights movement in the 1970s, Green's study focuses on male homosexual subcultures in Rio de Janeiro and Sao Paulo. He uncovers the stories of men coping with arrests and street violence, dealing with family restrictions, and resisting both a hostile medical profession and moralizing influences of the Church. Green also describes how these men have created vibrant subcultures with alternative support networks for maintaining romantic and sexual relationships and for surviving in an intolerant social environment. He then goes on to trace how urban parks, plazas, cinemas, and beaches are appropriated for same-sex erotic encounters, bringing us into the world of street cruising, male hustlers, and cross-dressing prostitutes. Through his creative use of police and medical records, newspapers, literature, newsletters, and extensive interviews, Green has woven a fascinating history, the first of its kind for Latin America, that will set the standard for future works. "Green brushes aside outworn cultural assumptions about Brazil's queer life to display its full glory, as well as the troubles which homophobia has sent its way. . . . This latest gem in Chicago's 'World of Desire' series offers a shimmering view of queer Brazilian life throughout the 20th century."—Kirkus Reviews Winner of the 2000 Lambda Literary Awards' Emerging Scholar Award of the Monette/Horwitz Trust Winner of the 1999 Hubert Herring Award, Pacific Coast Council on Latin American Studies

The best-selling author of *Hitler: Ascent and Hitler: Downfall* reconstructs the chaotic, otherworldly last days of Nazi Germany. In a bunker deep below Berlin's Old Reich Chancellery, Adolf Hitler and his new bride, Eva Braun, took their own lives just after 3:00 p.m. on April 30, 1945—Hitler by gunshot to the temple, Braun by ingesting cyanide. But the Führer's suicide did not instantly end either Nazism or the Second World War in Europe. Far from it: the eight days that followed were among the most traumatic in modern history, witnessing not only the final paroxysms of bloodshed and the frantic surrender of the Wehrmacht, but the total disintegration of the once-mighty Third Reich. In *Eight Days in May*, the award-winning historian and Hitler biographer Volker Ullrich draws on an astonishing variety of sources, including diaries and letters of ordinary Germans, to narrate a society's descent into Hobbesian chaos. In the town of Demmin in the north,

residents succumbed to madness and committed mass suicide. In Berlin, Soviet soldiers raped German civilians on a near-unprecedented scale. In Nazi-occupied Prague, Czech insurgents led an uprising in the hope that General George S. Patton would come to their aid but were brutally put down by German units in the city. Throughout the remains of Third Reich, huge numbers of people were on the move, creating a surrealistic tableau: death marches of concentration-camp inmates crossed paths with retreating Wehrmacht soldiers and groups of refugees; columns of POWs encountered those of liberated slave laborers and bombed-out people returning home. A taut, propulsive narrative, *Eight Days in May* takes us inside the phantomlike regime of Hitler's chosen successor, Admiral Karl Dönitz, revealing how the desperate attempt to impose order utterly failed, as frontline soldiers deserted and Nazi Party fanatics called on German civilians to martyr themselves in a last stand against encroaching Allied forces. In truth, however, the post-Hitler government represented continuity more than change: its leaders categorically refused to take responsibility for their crimes against humanity, an attitude typical not just of the Nazi elite but also of large segments of the German populace. The consequences would be severe. *Eight Days in May* is not only an indispensable account of the Nazi endgame, but a historic work that brilliantly examines the costs of mass delusion.

This "brilliant and provocative" (Walter Isaacson) guide shares nine principles to adapt and survive the technological changes shaping our future from the director of the MIT Media Lab and a veteran *Wired* journalist. The world is more complex and volatile today than at any other time in our history. The tools of our modern existence are getting faster, cheaper, and smaller at an exponential rate, transforming every aspect of society, from business to culture and from the public sphere to our most private moments. The people who succeed will be the ones who learn to think differently. In *WHIPLASH*, Joi Ito and Jeff Howe distill that logic into nine organizing principles for navigating and surviving this tumultuous period: Emergence over Authority Pull over Push Compasses over Maps Risk over Safety Disobedience over Compliance Practice over Theory Diversity over Ability Resilience over Strength Systems over Objects Filled with incredible case studies and cutting-edge research and philosophies from the MIT Media Lab and beyond, *WHIPLASH* will help you adapt and succeed in this unpredictable world.

The *Transition Timeline* lightens the fear of our uncertain future, providing a map of what we are facing and the different pathways available to us. It describes four possible scenarios for the UK and world over the next twenty years, ranging from Denial, in which we reap the consequences of failing to acknowledge and respond to our environmental challenges, to the Transition Vision, in which we shift our cultural assumptions to fit our circumstances and move into a more fulfilling, lower energy world. The practical, realistic details of this Transition Vision are examined in depth, covering key areas such as food, energy, demographics, transport and healthcare, and they provide a sense of context for communities working towards a thriving future. The book also provides a detailed and accessible update on climate change and peak oil and the interactions between them, including their impacts in the UK, present and future. Use it. Choose your path, and then make that future real with your actions, individually and with your community. As Rob Hopkins outlines in his foreword, there is a rapidly spreading movement addressing these challenges, and it needs you.

A study in the collision between Western medicine and the beliefs of a traditional culture focuses on a hospitalized child of Laotian immigrants whose belief that illness is a spiritual matter comes into conflict with doctors' methods.

Charles Eisenstein explores the history and potential future of civilization, tracing the converging crises of our age to the illusion of the separate self. In this limited hardcover edition of Eisenstein's landmark book, he argues that our disconnection from one another and the natural world has mislaid the foundations of science, religion, money, technology, economics, medicine, and education as we know them. It has fired our near-pathological pursuit of technological Utopias even as we push ourselves and our planet to the brink of collapse. Fortunately, an Age of Reunion is emerging out of the birth pangs of an earth in crisis. Our journey of separation hasn't been a terrible mistake but an evolutionary process and an adventure in self-discovery. Even in our darkest hour, Eisenstein sees the possibility of a more beautiful world--not through the extension of millennia-old methods of management and control but by fundamentally reimagining ourselves and our systems. We must shift away from our Babelian efforts to build ever-higher towers to heaven and instead turn out attention to creating a new kind of civilization--one designed for beauty rather than height. Breathtaking in its scope and intelligence, *The Ascent of Humanity* is a landmark book showing what it truly means to be human. "A tour-de-force filled with astounding insight, wit, wisdom and heart." --Christopher Uhl, author of *Developing Ecological Consciousness: Paths to a Sustainable Future* "Quite marvelous, a hugely important work. This book is truly needed in this time of deepening crisis." --John Zerzan, author of *Future Primitive and Elements of Refusal*

Minnesota Book Awards 2022 -- Finalist in Novel & Short Story "Fluid in time and place, *Carnival Lights* flows between one past and another, offering a heartbreaking portrait of multigenerational trauma in the lives of one Ojibwe family. This tapestry of stories is beautifully woven and gut-wrenching in its effect. Read it, and it may change you forever." -- William Kent Krueger, New York Times Bestselling author Blending fiction and fact, *Carnival Lights* ranges from reverie to nightmare and back again in a lyrical yet unflinching story of an Ojibwe family's struggle to hold onto their land, their culture, and each other. *Carnival Lights* is a timely book for a country in need of deep healing. In August 1969, two teenage Ojibwe cousins, Sher and Kris, leave their northern Minnesota reservation for the lights of Minneapolis. The girls arrive in the city with only \$12, their grandfather's WWII pack, two stainless steel cups, some face makeup, gum, and a lighter. But it's the ancestral connections they are also carrying - to the land and trees, to their family and culture, to love and loss - that shapes their journey most. As they search for work, they cross paths with a gay Jewish boy, homeless white and Indian women, and men on the prowl for runaways. Making their way to the Minnesota State Fair, the Indian girls try to escape a fate set in motion centuries earlier. Set in a summer of hippie Vietnam War protests and the moon landing, *Carnival Lights* also spans settler arrival in the 1800s, the creation of the reservation system, and decades of cultural suppression, connecting everything from lumber barons' mansions to Nazi V-2 rockets to smuggler's tunnels in creating a narrative history of Minnesota. of one Ojibwe family, this tapestry of stories is beautifully woven and gut-wrenching in its effect. Read it, and it may change you forever." -- William Kent Krueger, New York Times Best Selling Author "Chris Stark's newest novel explores the evolution of violence experienced by Native women. Simultaneously graphic and gentle, Carnival Lights takes the reader on a daunting journey through generations of trauma, crafting characters that are both vulnerable and resilient." -- Sarah Deer, (Mvskoke), Distinguished Professor, University of Kansas, MacArthur Genius Award Recipient "Carnival Lights is a heartbreaking wonder of gorgeous prose and urgent story. It propels the reader at a breathless pace as history crashes down on the readers as much as it does on the book's vivid characters. The author's brilliant heart restores their dignity and via the realm of imagination, brings them home." -- Mona Susan Power, author of *The Grass Dancer*, a PEN/Hemingway Winner "It's not every day that one is given an inimitable gift of truth. Carnival Lights is that gift. The history books that we've all read throughout time were purposely devoid of the realities of decades of Native genocide, attempts to eradicate our culture, and the horrendous effects of the boarding school era-trauma that continues to permeate the American Indian communities today. Carnival Lights is an opportune story of how two young girls navigate these lived experiences and provides a veracity that will reach deep into your heart, creating a newfound reflection of the actualities of this historical trauma. Chris Stark, a skilled narrative artist, once again engenders storytelling that ingeniously weaves multi-generational authenticities for not only the Native communities, but also as reflected for so many others. It's time for all of us to embrace this gift of truth." -- Deb Foster, Anishinaabe, MS-MFT Executive Director for the Ain Dah Yung Center, a meeting place for American Indian homeless youth and families "There are so many moods and story currents running through this wonder of a novel that I can attribute to individual women whose lives experiences run parallel to Stark's many characters. The two female adolescences in this novel take us to high and low heights, just like a carnival ride. It's overwhelming, irrational and dangerous, and there is no one to help, just as it has been for Indigenous people from the moment colonizers stepped foot on this continent of Turtle Island. Carnival Lights is powerful storytelling. Indigenous ancestors are persistently returning, so as not to be forgotten in death and memory, and Stark puts the reader right in the center of their pain and struggles." -- Mary K. Kunesh, Minnesota Senator, Standing Rock Lakota descendant, chair of Minnesota Missing and Murdered Indigenous Women taskforce "Carnival Lights is a powerful story of resilience, an emotional rollercoaster ride and an expression of the raw truth of multigenerational trauma. Sher, a lesbian and protector, or what we call 'two-spirit,' is particularly connected with the old ways." -- Lenny Hayes, Sisseton-Wahpeton Oyate, and Two-Spirit activist "Chris Stark weaves Native spirituality throughout Carnival Lights from the 1960s, before the Religious Freedom Act of 1978. We will lay under a fern, waiting for a drop of water to fall from the tip of the leaf with Em, feel the freedom of fleeing abuse with Kris and get to know the protector Sher who watches over Kris like a wolf. Carnival Lights reminds us that we are not alone, and we are watched over by ones we would have never known or seen if it were not for this desperate moment we are in right now. Chris Stark reminds us how important our teachings are, how our memories can comfort us in our darkest hour when we need it the most. Chris draws us into the inspiration and comfort provided to the characters at times guiding their next move." -- Babette Sandman, Ojibwe elder, White Earth Nation enrolled citizen living in Duluth "Chris Stark has done a beautiful job of

incorporating this story of cousins; Sher and Kristin, within a historical and cultural narrative. The trauma that they experience is a familiar tale for many of us. I did not just read this story.... I felt this story and I journeyed with Sher and Kristin in all directions, and through many emotions. The connection to the story of Native women today is clear and brilliantly written.
